D. P. R. Isenberg Caught In The Act

INVOLVES 3 RACES: LANDS IN U. S. JAIL

A Hawaiian boy took a Japanese hack to ride to a Chinese wedding. Saturday night, and was locked up in an American jail as the result. The wedding was held at Kaneohe and Joseph David, being distantly related to the bride, decided to attend and for the purpose took hack No. 248 belonging to a Japanese. David had not driven three hundred yards before he was pursued by an irate Japanese hack-owner and crowd of sympathizers who personally took David in charge and escorted him to the jail.

Photos of the Hon. D. P. R. Isenberg up in Placer County, Cal., viewing the California-Hawaiian Development Company's work in hydraulic mining. This property is handled by Hawaiian capital, among the controlling owners being James S. and John McCandless and C. G. Bockus. Mr. Isenberg is shown in various photos near the camp and "on the job."

ARBUCKLES RENEW WAR ON THE SUGAR TRUST

NEW YORK, June 17.—Once again the great houses of Arbuckle and Havemeyer have declared war. The cause is sugar, and to the victor probably will go the profits to be had from supplying to the country its annual millions of tons of the refined product. The Arbuckles are the aggressors, as they were in the last passage at arms fifteen years ago, when they first started to cut into the Havemeyer monopoly in the refining of sugar, and the Havemeyers counter-acted by roasting coffee, an industry in which the Arbuckles up to that time were supreme.

John Arbuckle, the best fighter of his line, is gone, but his successors, imbued with his spirit, are taking up the fight which, before his death recently, he probably had planned, and with the popular slogan, "Cheapen the cost of living," they are joining their allies for a final onslaught on the sugar trust citadel.

TO MAUI WEDNESDAY

That anyone may not be stopped from going to Maui Wednesday night on the Claudine the management of the Inter-Island Company has set the time of the departure of the Claudine at half past six o'clock. This will permit the business men, who wish to take the outing, time to go home and change their clothing and get a bite to eat before leaving.

Great promises are made by the Maui committee relative to the program of events and for those who do not care for the races there is always a tramp up Iao Valley on the card. It is a beautiful place and the opportunity is given for investigation. Eight dollars pays for the round trip from Honolulu.

THE STAFF'S VIEW

The advertisement in the Star-Bulletin today inserted by Benson, Smith & Co., Ltd., really expresses the opinions of the sales staff of the establishment. The gentlemen have the best opportunity to learn why the trade of the store is constantly growing. They know to what extent the general management of the business, and their connection as factors, has in influencing trade. Besides conveying information to the public, the advertisement gives publicity to the custom which, by long usage, has become a rule in the government of the salesmen.

AMERICAN HEADS LEPER REPUBLIC

MANILA, June 18.—The first president of the first leper republic in the world is an American citizen named Michael Whalen, the only American leper on the island of Cebu in the Philippines, who today was elected chief executive of the republic which the Philippine government has organized to manage the affairs of the leper colony.

ARMY FIELD BREAD.

The new field bread of the United States Army is to have its first field trial in the Philippines. It is much like ordinary "home-made" bread, except that each loaf is baked separately with a thick hard crust, which will keep it in good condition for a fortnight. After that, it can be freshened by dipping in water and rebaking.

CORRECT TIME.

A mechanism has been attached to the time clock at the Hamburg observatory by which the exact official time is transmitted to the telephone system of the city. From the fifty-

fifth to the sixtieth second of each minute the apparatus transmits a musical signal, which is followed by a phonographic announcement of the exact minute.

LARGE-CHURCH BELL.

A bell and mountings weighing more than 12,000 pounds has just been shipped from Troy, this State, to the First Church of Christ, Scientist, San Diego, Cal. This is said to be the largest bell in America west of Chicago. The doors of the ordinary box car being too small to admit the bell, recourse was had to shipping via steamer to Galveston, where a special car will be in readiness to convey the bell to its destination.

FOR A BABY.

The proprietor of a Greek candy kitchen in Elkhart, Ind., is credited with the longest name in the State. He signs himself "Pappathedodorokomunountaourgeotopoulos." For the convenience of others who may have occasion to address him he is Speros Michels.

Wanted—Two more passengers for around-the-island at \$6. Lewis around-the-island at \$6. Tel. 2141.
